Intelligence

- ✓ **Smaller footprint:** Without compromising performance or capacity
- ✓ **Clear lots faster:** 66% more than an employee can manually collect
- ✓ **Happy customers:** Helps ensure trolleys are available during peak hours
- ✓ **Decrease in injury claims:** Promotes safety by enabling associates to collect trolleys faster with little to no physical strain
- ✓ **Sustainable design:** Exceeds most retailer sustainability objectives

CartManager[®] Ultra

The Answer for Safer & Faster Trolley Collection

The design of the CartManager Ultra offers a smaller footprint without compromising performance or trolley retrieval capacity. Trolley collection can be a slow and physically demanding task. Employees are commonly limited to ten or less trolleys at a time due to concerns over exertion, strain and possible injury. Vehicle and pedestrian traffic in parking lots present obstacles that slow down trolley collection. **CartManager Ultra is the solution for your employees to easily navigate lines of trolleys through high traffic parking lots while increasing safety and reducing labour hours.**

Automated Broadband UNLOCK Signal for SmartWheel® CartControl® Systems

New Remote Design w/Error Code & Run Time Display
61m (200ft) Range

Keyless Operation

Front Foam Filled Wheels
30.5cm (12")

Back Swivel Wheel
20.3cm (8")

LED Beacon Strobe Light
High Visibility Light For Safety Awareness

Emergency Stop Button

Ergonomic Throttle Control

2m (6 ft) Charger Cord
110V and 220V/230V

LED Battery Charge Indicator

Powerful Motor with Two 12 Volt Batteries & 104 Ahr Capacity

Back Wheel Shock Absorption

Total Weight
198 kg (437 lbs)

Speed

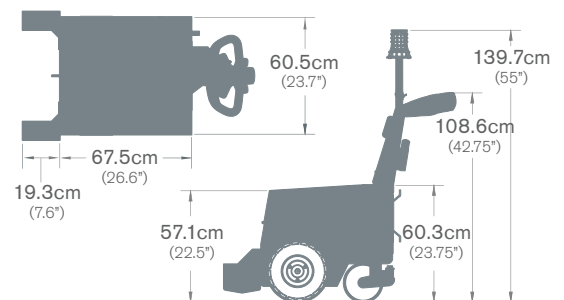

Forward: 4.8 km/h (0 - 3.0 mph)

Reverse: 2.4 km/h (0 - 1.5 mph)

How it Works

Trolleys are nested together and pushed by the CartManager Ultra. Employees steer the trolleys from the front while using the remote control to operate the unit.

Dimensions

Why is it great for you?

CartManager Ultra helps your employees clear car parks of trolleys faster while increasing safety and reducing labour hours. CartManager Ultra features an automated broadband UNLOCK signal for SmartWheel® CartControl® systems that ensures fast and efficient collection of locked trolleys. Powered by the brushless direct current motor, employees can collect up to 3 times more while having a significantly lower risk of injury. **Labour hours associated with trolley collection can be reduced up to 50%.**
